

Error: Swagger not working

Whitelabel Error Page

This application has no explicit mapping for /error, so you are seeing this as a fallback.

Mon Dec 27 11:46:12 IST 2021

There was an unexpected error (type=Not Found, status=404).

No message available

Possible Reason: the error is coming because of the mismatch of the swagger dependency version.

Solution :

Use the below dependencies in the pom.xml file for **Spring, Swagger**

```
<parent>
<groupId>org.springframework.boot</groupId>
<artifactId>spring-boot-starter-parent</artifactId>
<version>2.4.2</version>
<relativePath /> <!-- lookup parent from repository -->
</parent>
```

```
<dependency>
<groupId>io.springfox</groupId>
<artifactId>springfox-swagger2</artifactId>
<version>2.9.2</version>
</dependency>
```

```
<dependency>  
<groupId>io.springfox</groupId>  
<artifactId>springfox-swagger-ui</artifactId>  
<version>2.9.2</version>  
</dependency>
```

Then Update the project

follow the following steps

- i) Right-click on the spring boot project
- ii) click on Maven (check bottom around 4th last option)
- iii) Click on update Maven project
- iv) check the force update of snapshots/releases box.
- v) click on ok
- vi) restart your project.
